Release Date: December 2, 2024

For Immediate Release

(Kansas City, Mo.) – Scarborough Global is excited to announce the upcoming acquisition of Parker & Co. (Parker), a logistics company headquartered in Brownsville, Texas with additional locations in Pharr/McAllen, TX and Laredo, TX. Parker offers a suite of services including customs brokerage, warehousing, freight forwarding, and third-party logistics services, so they will fit in seamlessly with Scarborough’s work in Mexico and the southern United States.

“Frank and his team at Parker continue to strive to provide best in class service to their customers, which matches the level of care and concern we provide our clients as well,” said Scarborough CEO Adam Hill.

Scarborough will continue to use Parker & Co.’s existing spaces to supplement the services currently offered out of Scarborough’s Laredo office. Parker & Co. also has a fleet of trucks that Scarborough will acquire, allowing for further expansion of Scarborough’s transportation capabilities.

“We are constantly looking for ways to expand & evolve our services to provide further value to our customers,” Hill said. “Frank & his team allow us to expand not only our footprint, but our service offerings as well. In addition, we are excited to provide additional services such as Mexican Customs Brokerage to current Parker customer base”

About Scarborough Global

Scarborough Global is a global logistics company based in Kansas City, Missouri. Scarborough offers a full suite of services, including international freight forwarding, customs brokering, domestic transportation, third-party logistics services, and supply chain consulting. Founded in 1984, Scarborough has steadily grown and expanded its services to cover every step of the global supply chain. Scarborough now has offices in Kansas City, Chicago, Texas, Toronto, and Monterrey, Mexico.
