

WAREHOUSE MANAGEMENT

Clarity is Scarbrough's all-in-one supply chain user portal. Clarity allows customers to plan, track, and manage their entire supply chain in one convenient, user-friendly platform. Manage paperwork and correspondence, and track your shipments in one stop to save time and stress. View and access all your invoices and costs directly through the portal to save time and manage your budget with confidence. And now Clarity is getting even better with the addition of warehousing capabilities.

HOW IT WORKS

REAL-TIME WAREHOUSE VISIBILITY

Get real-time inventory counts and immediate access to receipts for inbound goods. Drill down to see product details, such as cost and dimensions.

CREATE AND TRACK OUTBOUND ORDERS

Request goods from the warehouse with a simple form submission, and check your request status without picking up the phone.

NO MORE STALE SPREADSHEETS

Curate, filter, and download inventory reports right from our platform. Reduce tedious email back-and-forth, and ensure you always have the latest information.

MAKE BETTER INVENTORY DECISIONS

We'll arm your team with the inventory information you need to make better-informed downstream purchasing and planning decisions.
